

Poco Ima Doc

We lost POCO IMA DOC in December of 2009. Poco has left his stamp on our program with the large number of daughters we have retained over the years. I rode "Poco" on the ranch gathering and sorting cattle. He was so easy-going and rode like a gelding. When he was not with the mares Poco ran and wintered out with ranch geldings.

AQHA and NCHA champions fill his pedigree. His colts have just come into their own and they are outstanding rope and cow horses. Poco's colts have good bone, withers and that trainable mind. He stamps his colts with a perfect head, clean neck and sloping shoulder. All of his colts we ridden on the ranch over the years have been everything we could want - fast learners, kind dispositions, with the willingness to work and get the job done. Their calm dispositions and cow sense have made them a pleasure to ride.

Poco's daughters are without a doubt some of our best broodmares. Three different times Poco daughters have produced our high selling weanling and it was a Poco daughter that is the mother of Weavers Poco Heaven who was 7th in the nation in the NRCHA Limited Open Futurity for all three-year-olds in 2003. A Poco daughter was also the mother to Weaver Smart Poco the 2004 IBHA World Champion Open Cutting. These daughters are good mothers and excellent milkers who pass along those Poco Ima Doc traits.

In 2007 and 2008 Poco Ima Doc was awarded MQHA Broodmare Sire of the Year. This is a prestigious award and can only be won by a stallion that has at least five daughters in production and some of the grandget have to have performed. Poco will be greatly missed, and forever admired as a cornerstone to the Weaver Ranch.
